

## **I'LL CARRY YOU WITH ME**

Lyrics Les Kotzer / Music Lewis Manne

I found a picture of you and me  
Father with daughter on his knee  
You were maybe two or three  
I loved you more than life  
I hope that you can see  
    I will always love you  
    This I guarantee  
    That no matter where I go, I'll carry you with me  
    No matter where I go, I'll carry you with me

We never left your side  
Always looked at you with pride  
Wiped the sadness from your eyes  
Those nights when you were sick and cried  
Bittersweet memories, I'll carry them with me  
    I will always love you  
    This I guarantee  
    That no matter where I go, I'll carry you with me  
    No matter where I go, I'll carry you with me  
        Whatever rainbow I may chase  
        Whatever problems that I face  
        The only beauty that I see  
        Is always you in front of me

How those days just slipped away  
I can't believe this person standing here today  
Is the lady who, stole my heart away?  
I'll carry her with me,  
With me everyday  
    I will always love you  
    This I guarantee  
    That no matter where I go, I'll carry you with me  
    No matter where I go, I'll carry you with me  
    I will always love you  
    This I guarantee  
    That no matter where I go, I'll carry you with me  
    No matter where I go, I'll carry you with me
