

YOU MADE THE DIFFERENCE

Tempo 116 in G
L. Kotzer /L. Manne

I could have walked a different path
Or traveled down a winding road
Of all the debts I've ever owed, my greatest is to you
You made a difference
You made a difference
You made the difference in my life

I might have taken foolish risks
Or overlooked the danger signs
You were there behind me all the time
You made a difference
You made a difference
You made the difference in my life

CHORUS---- It would be naive to say
That I'd get there anyway
How do I repay you?

What is left for me to say?
To thank you for the gentle way
You made the difference to my life

I might have struggled to find myself
Or searched for love along the way
In a world that sometimes makes no sense, you gave me confidence
You made a difference
You made a difference
You made the difference in my life

Your love is the greatest gift I've ever known and
You made the difference in my life

You made a difference
You made a difference
You made the difference in my life

You made the difference in my life
